PERSONAL INFORMATION

Nationality: Nigerian
Location: Lagos, Nigeria (EMEA · GMT+1)
Work Auth: Authorized to work in Nigeria · Open to full Remote roles
Availability: Immediate

PROFESSIONAL SUMMARY

Full Stack Engineer specialising in .NET 8, ASP.NET Core, and React/Next.js — building production SaaS platforms with Clean Architecture and CQRS from the ground up. 5+ years delivering scalable, cloud-deployed systems remotely for international clients.

TECHNICAL SKILLS

Backend: C#, .NET 8+, ASP.NET Core, Entity Framework Core, MediatR, FluentValidation, SignalR, JWT
Frontend: React.js, Next.js, TypeScript, Tailwind CSS
Databases: PostgreSQL, SQL Server
Cloud/DevOps: Docker, GitHub Actions, CI/CD pipelines, Azure, Vercel
Architecture: Clean Architecture, CQRS, REST APIs, Multi-Tenancy, Domain-Driven Design

PROFESSIONAL EXPERIENCE

Senior Full Stack Software Engineer *Freelance · Remote*

Feb 2019 – Present

- Architected and shipped RESTful APIs in ASP.NET Core serving multi-tenant SaaS products, applying Clean Architecture and CQRS throughout.
- Implemented JWT-based auth with role-based access control across multiple client platforms, eliminating unauthorised access vulnerabilities.
- Reduced deployment friction by containerising services with Docker and automating releases via GitHub Actions CI/CD to Azure and Vercel.
- Built performant, type-safe frontends in Next.js and TypeScript, consuming own REST APIs and third-party integrations.

SELECTED PROJECTS

Team Five Platform · team-five-black.vercel.app *.NET 8 · Next.js · PostgreSQL · Docker · CI/CD*

- End-to-end SaaS platform: .NET 8 API backend with Clean Architecture, Next.js frontend, JWT auth, and role-based access — deployed to production via automated CI/CD.
- Integrated third-party APIs and implemented scalable multi-tenant data isolation patterns.

SureRoad Platform · sureroad.vercel.app *TypeScript · Tailwind CSS · REST APIs · Vercel*

- Delivered a fully responsive, accessible UI in TypeScript and Tailwind CSS with sub-second load performance.
- Designed and consumed REST API layer; set up zero-downtime Vercel production deployment with environment-based config.

EDUCATION

B.Sc. in Accounting *University of Lagos, Nigeria*
