Profile / Objective

Highly skilled Full Stack Software Engineer & Finance Professional with extensive experience in JavaScript, React, TypeScript, Node.js, .NET, and C#, combining tech expertise with accounting knowledge. Adept at designing robust, user-centric solutions while optimizing business processes and ensuring high performance. Passionate about leveraging tech and analytics to solve finance and business challenges, mentoring teams, and driving innovation. Thrives in agile, multi-disciplinary environments with strong problem-solving, communication, and collaboration skills.

Work Experience

Full Stack Software Engineer – EKEDC, Ikoyi Lagos

Feb 2019 – Present

- Led technical discussions among developers, designers, and stakeholders to ensure smooth project execution.
- Translated complex technical concepts into accessible documentation for both technical and non-technical audiences.
- Mentored junior developers, improving code quality and knowledge sharing.
- Developed and optimized applications using React.js, Next.js, .NET, PostgreSQL, enhancing performance and scalability.
- Built responsive, visually appealing user interfaces with Tailwind CSS, ensuring consistent user experience.
- Implemented automated testing frameworks to improve code reliability and reduce regression issues.
- Assisted in project planning, backlog grooming, and sprint management to ensure timely delivery of high-quality software.
- Collaborated with UI/UX designers to enhance user experience and front-end design.

Graphics Designer – Freelance (Remote)

July 2017 – Dec 2019

- Branding & Identity: logo design, brand guidelines
- UI/UX Design: wireframing, app/web design

- Print & Packaging: brochures, business cards, product packaging
- Motion Graphics: animated content for social media and advertisements
